

CONTRACT MANAGEMENT

proCONTRACTS

KEEP AN OVERVIEW, SIMPLIFY PROCESSES.

Intelligent contract management (CLM) with proCONTRACTS and Dynamics 365.

360°-VIEW OF CONTRACTS

CONFIGURATOR

CONTROLLING

Minimise risks, prevent losses, gain security - in a world where contracts are becoming increasingly complex and the design options are becoming more and more differentiated, central contract lifecycle management (CLM) is the crucial building block for cost-effective and legally compliant contract management.

proCONTRACTS offers you a perfect basis for this: From template-based creation to continuous monitoring of dates and deadlines up to the intelligent dashboard for analyses and reporting. This way, you always keep an eye on your contracts with customers, partners, suppliers including all important details throughout the entire period. You will also minimise risk, prevent losses and continuously optimise the contract creation.

proCONTRACTS

LEGALLY CERTAIN CONTRACTS

Template-based creation with bespoke contract texts and periods of validity. Copy-and-paste mistakes become a thing of the past.

ALWAYS HAVE AN EYE ON DATES AND DEADLINES

Intelligent analysis and reporting tools, automatic deadline calculation, monitoring of dates and deadlines.

FULL INTEGRATION IN DYNAMICS 365

Seamlessly link the contract information of all customers, partners and suppliers with other modules directly in Dynamics 365.
